

Acres Home Super Neighborhood Meeting

June 21st, Thursday, 6:30-8:00pm

Acres Home Multiservice Center

Meeting Summary

Melissa Beeler briefly presented the Precinct 1 opportunity, engagement done thus far and proposed Phase 1 and Phase 2 networks. Next steps will be to inform the community of which routes from the Phase 1 map will be designed and constructed within ten months.

Comments received:

- Concerns about parking along some of the Phase 1 network, such as Dolly Wright. More site visits at various times of the day were suggested.
- A woman who attended the mobility workshop was concerned that the routes would not be utilized and that we spent \$10 million for nothing. More education on how to use the lanes and why we made this investment is needed in the community.
- Near Northwest Management District wants to see on-street bike lanes on W Little York from Vogel Road to the White Oak Bayou trailhead (use Vogel Road as a neighborhood bikeway).
 - o NNMD mentioned this as the May Super Neighborhood Meeting, but it would connect from an off-street trail on Vogel Creek to W. Little York, the idea being to make a Vogel Creek trail connection to White Oak Bayou without building a bridge.
- In the mid-to long-term, develop a loop around Acres Home with spurs leading to bikeways on streets.
- De-Soto Phase 2 connection should connect to Carver Rd.
- Another survey was filled out, bringing each route priority total to:
 - o 17- Wilburforce
 - o 17- Dolly Wright
 - o 14- Ferguson
 - o 13-Knox
 - o 8- Mansfied
 - o 6- Carver
 - o 6- De Priest
 - o 6- Garapan
 - o 6- De Soto
